**At:** Medical Education Speakers Bureau  
**Tel:** (714) 505-4777  
**Fax:** (714) 505-7698  
**email:** [manderson@speakersnetwork.com](mailto:manderson@speakersnetwork.com)

Geoff Bond returns from UK & Europe to deliver his CME programs to medical centers in California. He will be available from **February 6 to March 18, 2012**. Geoff only comes once a year so this is an opportunity to be seized.

**Why Book Geoff Bond?**

Geoff speaks to the **pressing concerns** of health professionals today: How to **prevent progression and relapse** of today's major diseases: **Cancer, Heart Disease, Osteoporosis, Obesity, Diabetes, Alzheimer's** and many more.

**After the Lecture Physicians Will Be Able to:**

- Explain to patients that many of their medical problems are self-inflicted and that the patient has control over the progression or remission of the disease,
- Advise patients on the lifestyle patterns which support recovery and prevent relapse,
- Advise patients on avoiding urban myths and errors of received wisdom .

**Most Requested Topics** (More at [www.SpeakerBond.com](http://www.SpeakerBond.com))

**It's in the literature, but no one says it: Darwinian Insights.** - Fact and fiction about cholesterol and CVD; dairy and bone health; the demonization of sunshine; 8 glasses of water a day, and other shibboleths.

**So you've patched up the degenerative disease – now what do you advise your patient? Revolutionary insights from Evolutionary Anthropology.** - Give your patients the tools to prevent relapse of diseases like cancer, heart disease etc and give them the prospect of a new lease of life.

**Integrative Medicine:** Science-based lifestyle principles to enrich medical practice - Insights from our Pleistocene origins.

**Fear not Cancer:** Our evolutionary history gives us revolutionary insights for avoidance and remission.

**What does Geoff Bond speak about?**

Geoff describes the lifestyle that our evolutionary heritage designed for humankind and compares it with the way we live today. The mismatch between the two is making us sick.

Geoff explains how we know this, its surprising conclusions, and how health professionals can apply this knowledge to the benefit of their patients, so aiding recovery and avoiding relapses.

Geoff's latest book, *Deadly Harvest* encapsulates current thinking on lifestyle anthropology . It describes how, by learning the lessons from our ancient past, we can maximize our chances of enjoying a long "healthy life expectancy". *Deadly Harvest* is a work that doctors can trust with some 700 primary source citations. A copy is donated to the library.
