Geoff Bond, B. Sc.  
Nutritional Anthropologist  
69-115 Ramon Road, # F 1517  
Cathedral City, CA 92234

Dear Geoff,

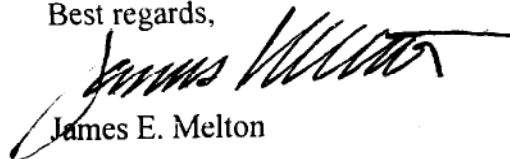

After previewing your personal presentations several times and having read your books, I am pleased to say that we at the *Agency for Speakers and Entertainers* are privileged to represent you to our clients.

Any person or organization could certainly benefit from the wisdom you have to share about the foods we eat, our diet and our health. After becoming familiar with your work, it is no surprise to me to discover that American Standard has invested in 35,000 of your books to distribute to each of their employees. A large "bravo" to American Standard for taking the initiative to educate their employees toward health enhancement, and laying the groundwork for job satisfaction and reducing absenteeism.

Geoff, you have demonstrated your ability to educate an audience with your extensive knowledge of nutritional anthropology delivered in a personal and approachable style. I trust that our clients will also be pleased with the results you will bring to them at future conferences.

We at the Agency look forward to many booking opportunities and satisfied clients.

Best regards,

James E. Melton
